Dear Mr. Baker: TME Asphalt Ridge, LLC will not again be able to meet the date of May 15th, 2012 to submit an amendment to the plan for M/047/0089 as directed by the Division of Oil Gas and Mining. We are requesting another extension till June 1st, 2012.

This should be the last time we ask for an extension. We keep running into delays due to the time of year and expansion of business, also we ran into having our Ames lead project engineer being "out of the country" during part of this time. We firmly believe we will be able to make June 1st. according to our projections. We didn't realized the work/time involved in this modification.

Again we sincerely apologize for this delay, partially due to an asphalt ore business contract TMEAR is about to sign that will affect this amendment. That large contract is being signed hopefully Friday the 18th of May. It was supposed to be signed the 1st of May.

Thank you for your considerations.
